DETAILED ACTION

1. The examiner of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Dr. Gerald R. Ewoldt, Group Art Unit 1644.

2. Claims 1, 3, 5, and 6 are pending and being acted upon.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office Action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the Applicant for a patent.

4. Claims 1, 3, 5, and 6 stand rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gallimore et al. (of record), for the reasons set forth in Paper No. 6, mailed 5/25/01.

Applicant's arguments, filed 6/28/01, have been fully considered but they are not persuasive. Applicant argues that the mechanisms by which the T cells of the reference were stained with an MHC Class I complex and the methods by which the T cells of the instant application are stained with an MHC Class I complex are different, i.e., surface labeling versus internalization. Applicant further argues that the instant method requires a longer incubation period than the method of the prior art. However, Applicant's arguments comprise unclaimed limitations. The instant claims recite neither an internalization requirement nor do they recite a minimum incubation time. Thus, given the breadth of the instant claims, the invention taught by the prior art anticipates the invention of the instant claims.

5. No claim is allowed.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing

date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
